

There is some disagreement about the introduction of National Standards, as you know. An overlooked aspect is that children are at school for 6 hours a day. Who has them for the other 18 hours?

“the education of a child involves the whole village”.

The achievement of our children should be a partnership between home and school. You can help your child at home by:

- taking an interest in their school, reading to them, with them and by them.
- helping with homework, providing learning experiences
- ensuring plenty of sleep, food, warmth, being at school on time and every day
- limiting television.
